Credit risk and sustainability analyses are part of the investment process. The ESG strategy applied in the Sub-Fund is through: Integration, the Sub-Fund promotes issuers that: Integrate sustainability into their ongoing business model and strategy. Have a high SIMS-S.

Demonstrate a high degree of willingness to reduce their greenhouse gas (GHG) emissions (transitioning issuers) or aim to be more energy efficient. Monitoring and engagement dialogues, the Sub-Fund seeks to influence issuers towards a more sustainable direction, by ensuring that the portfolio companies strive to make ongoing and meaningful

progress concerning sustainability risks and opportunities through engagement dialogues, both in direct dialogues and in collaborations.

We believe that companies working with managing environmental challenges, business ethics and social responsibilities will be more successful.

Exclusion, the Sub-Fund will comply with the Management Company's exclusion policy and therefore excludes issuers that: Breach international norms and standards where the issuer cannot present clear goals and ongoing measures to address the issue(s).

To promote social and general sustainability characteristics, the sub-fund excludes investments in companies that operate in sectors or business areas that are assessed to present major sustainability challenges, such as tobacco, recreational cannabis, pornography, commercial gambling, civilian weapons and alcohol.
